

ABOUT US

Founded in 1999, GMS is a professional and experienced network, system and services company, specialized in building communications network and systems as well as value added services for Telecoms, Internet Service Providers and Enterprises of all business size and structure.

GMS is formed by a team of IT professionals with many years of experience working in the area of internet infrastructure such as IT security, high availability, contents and internet traffic management. It excels with its technical expertise, innovative culture and solid experience to provide time-to-market solutions and professional services - for design and consultancy, system development and integration, project management, and support and maintenance.

An independent IT and security solutions provider, GMS has a reputation for being a trend-spotter, being the first to offer Ironport and ArrayNetwork products in Singapore, as well as industry leading technologies from Alcatel, Juniper, Sophos, Sun and Cisco to name a few.

With a regional client base ranging from financial institutions, healthcare, retailers and manufacturers to telecom companies and Internet Service Providers,

GMS is also regarded for its "industrial strength" solutions, designing, building, delivering and maintaining individual solutions that bring people, processes and technology together.

GMS operates across the region including in Malaysia, Hong Kong, Indonesia, Thailand and the Philippines.
